Conference Tables

Made from a single piece of wood or multiple, every live edge conference table we produce is unique and organic.

The natural edges of the wood can be left unfinished or stained and sealed to create a variety of looks. Live edge tables are often made from reclaimed wood, which adds to their sustainability and gives them a sense of history.

They can be made from a variety of woods. They can be a focal point in any room and add a touch of luxury and style.

All the wood

Our collection encompasses a variety of species, each possessing its distinct beauty, character, and story.

From the elegant grain patterns and warm hues of **Raintree** (*Albizia lebbek*) and **Eucalyptus** to the rich reddish-brown color and beautiful grain patterns of **Mahogany** (*Gaia*), our wood selection offers timeless elegance and sophistication.

The **Transformation** Tree (Golden Shower Tree) and **Service** tree provide unique golden-colored wood with striking grain patterns, embodying resilience and strength in our creations.

We also embrace the natural allure of **Neem** tree wood, known for its durability and resistance to decay, making it ideal for outdoor furniture. Additionally, **Tamarind** tree wood, with its deep reddish-brown tones and prominent grain patterns, creates striking and attention-commanding pieces.
